## INTRODUCTION

Introducing our innovative language learning solution! Our team has developed an interactive interface that acts as a comprehensive study application for anyone interested in learning different languages. Our interface focuses on Spanish and French and is designed to cater to learners of all proficiency levels. With separate categories for each language, our interface features a vast collection of questions that evaluate the user's spelling, vocabulary, and communication skills.

Using our platform, users can easily access the questions tailored to their proficiency level based on their score, which is linked to their profile. Our "quiz mode" offers users an engaging and interactive experience, featuring various question types such as fill-in-the-blank, and multiple-choice.

Furthermore, our interface includes a "maintenance mode," which allows users to add, edit, or delete questions, ensuring a customizable and personalized learning experience. Don't miss out on the opportunity to learn a new language efficiently and effectively with our cutting-edge language-learning solution!

## INTERFACES

1

### LOG IN SYSTEM

The login system is the security feature used to access our application which demands the user to provide authorized login details specifically the username and password. The system validates these details against a database to verify the user's authorization in order to access the requested resource. Successful login allows the user to enter the system, while an unsuccessful attempt restricts the access.

2

### USER'S PROFILE

The user's profile is a data storage feature that captures relevant user information, including name, scores, error rates, correct answer rates, and their corresponding averages. This data is useful in monitoring user progress and making informed decisions on how to personalize the learning experience.

3

## QUESTIONS/PRACTICE PAGE SYSTEM

Our interactive feature displays customized questions to users and provides a dynamic answering experience. The system tailors the questions to the user's preferences and displays the correct answer based on their inputs. This feature enhances the learning experience by providing immediate feedback and personalized learning.

4

## SCORE PAGE & TRACKER

This score feature is an interactive interface that displays the user's score, percentage gained, and corresponding achievement string (e.g., "Excellent!!"). This feature enhances user engagement, motivation and provides instant feedback on their progress.
